Jesus vs City of Gulfport and Greg Pietrangolo

1:21-CV-00191-TBM-RPM

Amended Complaint & Demand  
Demand 2.5M

in addition to the offences outlined in the First Complaint, Defendant unlawfully had Mr Jesus arrested unlawfully by Classifying Mr Jesus personal residence where he lived with roommates who split the rent as reported before as listed a Rooming House. according to the law one has 1 Year to repair storm damage, we were in our timeline and THEY could see that there were Replacement windows and doors that each room may have regress. at the point of arrest, my wallet was simply thrown into a trash pile on a roommates truck bed, and for 72 hours including Christmas we were dissallowed to return with workers to correct the issues. after much persistence (as heard in the recordings) we were eventually able to get Gary Anderson to do and accompany his inspector for an Electrical inspection so that we may use our power tools and the required water temperature to clean up rotten food. After completing the outlined tasks on the recordings, Gary Anderson refused to allow our Equal rights to complete this and these tasks. When asked on recording if they ever had any cases ~~whereby~~ whereby they dissallowed a resident to

repair any demands they may have. He on the  
 recording said no. I'm requesting 2.5 m dollars  
 because I was arrested during the Christmas holiday  
 unlawfully the day after the death of my roommate.  
 And because they forbid the Fire department to  
 return our Electricity meter under safe conditions.  
 We are not a boarding house, and are not licensed  
 as a boarding house and any money spent for lodgings  
 should be returned. We have a year to replace and  
 repair things that were the result of a natural disaster,  
 we are within our window and they witnessed the  
 replacement parts. Playground equipment even electric ones  
 are exempt from permitting, Gery Anderson adds another  
 restriction to his unlawful lockout saying apparently  
 some of the homeless people you have allowed to  
 sleep in your park have made cots, sleeping bags  
 old mattresses to sit upon the dirt and pallets  
 at your playground. Mr Jesus is legally allowed to allow  
 anyone He wants in this playground which is exempt  
 from building code scrutiny. This is an open case  
 of discrimination and our constitution outlined in the  
 First Complaint disallows such behavior
